**ENL-VSL List of Documents with Explanations**

Environmental LLC (“ENL”) and Verde Systems LLC (“VSL”), through their undersigned counsel, hereby provide the following List of Documents with Explanations pursuant to the October 1, 2014 scheduling Order, FCC 14M-30 (the “Order”). Mr. Havens joins in this filing (collectively “EVH”).

Attached hereto as Exhibit 1 are notes to the list of documents with explanations.

Attached hereto as Exhibit 2 is the list of documents with explanations.

Wherefore, ENL-VSL and Mr. Havens submit their List of Documents as set forth above.

Respectfully submitted,

/s/  
James A. Stenger  
Chadbourne & Parke, LLP

October 10, 2014

## Exhibit 1

### **Principal Notes to the List of Documents with Explanations in Exhibit 2<sup>1</sup>**

1. EVH has in recent filings in this proceeding and at the most recent Status Conference discussed the situation where the Bureau has not prepared and put on a direct case for the Commission, contrary to its obligations under Part 0 of the FCC rules and the Commission's direction in its 2011 HDO-OCS FCC 11-64 and its Order of last month, FCC 14-133 (denying Second Thursday relief and lifting the stay), but instead has adopted the case of Maritime and its supporters, essentially continuing with its position in its joint attempt with Maritime at a settlement, stipulation and related summary decision that the Presiding Judge rejected (except for a limited finding based on pre-HDO alleged factual determinations of undefined "construction," which EVH respectfully disagrees with as an issue for appeal of a final decision, if needed). In this highly unusual circumstance, to protect its rights and the public interest the Commission advances in the above noted Orders, EVH is proceeding with a case the Bureau should have developed and prosecuted.<sup>2</sup> This is one factor that accounts for the substantial quantity of documents.

Other factors contributing to the quantity of documents include: the extensiveness of the actions and failures of Maritime involved and alleged in issue (g), and of its predecessors, that span large geographic areas and over a decade, and that result in a large number of relevant documents; and the degree to which Maritime and its predecessors have hidden and distorted relevant information during this period, failed to file the required section 1.65 reports, failed to file the required station license cancellation reports under section 1.955(a)(1) (see the Joint Stipulation of September 11, 2014 between Maritime and the Enforcement Bureau: the cancellation reports of the automatically terminated stations were due up to 2.5+ years ago, and counting), failed to keep and provide in discovery station logs required under section 80.409, and engaged in other wrongful actions, shown in this proceeding and in below listed documents, to conceal the nature, extent, and status of violations and failures relating to the licenses and stations under issue (g).

In the above-noted preceding EVH filings and at the noted Status Conference, EVH described their surprise, alarm and objection as to the Bureau's failure to present a direct case and to continue to effectively support Maritime's case after the Judge's rejection of the above-noted joint attempt at summary decision. Thus, while the below listed documents are all relevant, and that relevance is explained, EVH also will continue to endeavor, in reasonable time

---

<sup>1</sup> Finalized on 10-9-2014.

<sup>2</sup> EVH have rights to protection under the law, from serious FCC rule violations, from the Commissions rules- Enforcement Burueau but, instead, has been thrown into this mockery of due process where it has to take up the job of the Bureau for protection of its and the public's interests. (EVH believes the reasons for this will be shown, in time, and that remedies are available.) See discussion related to this topic in the EVH proposed schedule filed yesterday, October 9, 2014 in this proceeding, citing relevant rules and the related Congressional mandate.

after this surprise action by the Bureau, to streamline its case, including its documents, for the Commission's purposes including under the HDO-OSC and 14M-133, which includes the protection under law that EVH deserves.

2. All of the documents in the chart, already produced in hard copy, are clear on their face, including in the initial pages, as to the nature of the documents and their information relevant to Issue (g) and credibility (summarized by the meanings given to "B," "D" and/or "C" described at the top of the chart) and any attempt to give a further summary would lengthen and complicate this filing and may artificially limit how the document can be properly used in cross-examination, or the EVH direct case.

3. The understanding of EVH is that this document, as with other required filings in proceeding 11-71, must be filed on ECFS, and in addition, that ECFS converts Excel documents to pdf, where the data can no longer be sorted. For this reason, if a party or the Presiding Judge believes it will be helpful to them to sort this list (e.g. according to date, or documents from filings in 11-71, versus other documents, etc.), then EVH will provide a courtesy copy of the data in the table herein in Excel format.

4. Notwithstanding the issuance of a formal Order accepting the Joint Stipulation of MCLM and the Bureau of 9/11/14 as to the specific purpose of Issue G, which is automatic termination under Section 1.955, EVH understands to be left open, for factual and legal determination, the circumstances, including actual dates, of the permanent discontinuance of all but the 16 Stations under the Stipulation (and, at the hearing, as to the permanent discontinuance of the 16 Stations, which EVH believes will be proven up). The relevance of the permanent discontinuance of the stations other than the 16 Stations, in relation to the Issue (g) hearing on the 16 Stations, is as to the credibility of MCLM and all parties testifying in support of MCLM. There was nothing shown in that Stipulation that supported, not to speak of proved up, those factual circumstances, including the dates of the permanent discontinuance.

5. EVH filed on October 6, 2014, a request to extend the time to submit this list, and the associated witness list. The Bureau opposed that reasonable request. EVH was given only an additional 24 hours to react to the Order on the Stipulation issued simultaneously with denial of an extension. In the event that EVH finds any documents listed in the chart as redundant or no longer relevant or useful, then it will submit a modification hereof.

In this regard, *EVH did not receive from the Enforcement Bureau or any other party any specific objections or comments* on the relevance and appropriateness of the initially filed list, which accompanied the hard copies of these documents that were timely served, as to any of the documents, or category of documents, in said list. As counsel to E-V made clear at the status conference of last week, E-V stood ready to confer with other parties on these matters.

6. Regarding matters herein that relate to Puget Sound Energy ("PSE"): EVH do not by this list, or otherwise (i) challenge PSE's qualifications under FCC law and policy to have entered into an asserted agreement with Maritime to obtain FCC licensed spectrum or to hold or such spectrum, and (ii) raise issues directed at PSE, and (iii) request that PSE be compelled to

participate in this proceedings involving Maritime. However, to the extent that the record in this proceeding, including but not limited to the direct case that the Bureau and/or Maritime or other parties indicate that they will put on, contains information that PSE provided, or indicates that PSE may provide, in support of Maritime and/or the Stations in its name of Maritime, in the State of Washington or any other State-- and that is apparent in the record--,then, in that case and to that extent, EVH asserts that PSE is involved, and reserve all rights, in regard to this list and the hearing under issue (g).

Further regarding PSE, in the earlier stages of this 11-71 proceeding, it appeared that PSE had no interest in Maritime retaining any Stations under issue (g), (h) or otherwise, including in the service areas of PSE as a regulated power utility company. That was noted by EVH and was apparent in FCC records since PSE owns AMTS A-block geographic licensed spectrum throughout its service area and under FCC rule §80.385(c) will automatically obtain the spectrum of the cancelled Maritime stations are also on the AMTS A-block. More recently, however, PSE has expressed in discovery responses in this proceeding that it seeks to gain from the Maritime stations by its asserted agreement with Maritime more coverage area and/or more spectrum than it holds as the geographic area licensee. Those claims are directly against and challenge the claims of EVH in this proceeding, and in other legal proceedings, regarding the abandonment and cancellation of the Maritime licensed stations and spectrum and its disqualification. To this extent, EVH reserves the rights to modify its position in the proceeding paragraph. EVH is conferring with PSE in this regard.

## Exhibit 2

### List of Documents with Explanations

The list, in a chart, commences on the following page.

Note on formats: The hard copies of the following chart, in the service copies of this filing, may be printed on standard 11 x 8.5 inch paper, but the below chart in the electronic PDF form uses a larger page width for ease of review on computers.

Relevant Issues Codes: The following letter codes are used in the chart below in the rightmost column. These identify relevant issues that a document will be used to support, as instructed in the *Order FCC 14M-30*:

**B** = Document with Background and foundation information relevant to D and C (e.g., copies of licenses at points in time, and the 2004 FCC audit documents, etc. provide background-foundation as to D and C.).

**C** = Document regarding Credibility and related licensee character and fitness information.

**D** = Document regarding permanent Discontinuance information. In this regard, Maritime, other parties, and the Bureau assert that this involved intention and states of mind, even independently of actual Station existence and service.

**O** = Document with Other information: regarding pending appeals concerning the Issue G proceeding that should or may be resolved before completion of the hearing, the resolution of which could affect the hearing including the scope of documents and witnesses. This category "O" also includes certain Orders in this proceeding that may be used at the hearing as foundation.

The above letter codes used in the chart's column "Issue(s) to which relevant" indicate that the document has relevance to the issue noted by the code letter; however, documents may also have relevance to other issues, even if the letter for that other issue(s) is not listed. For example, a document with information on discontinuance ("D"), if revealed in the course of the hearing to contain or indicate misrepresentations, incompleteness, lack of candor, speculation, etc., also demonstrates lack of credibility ("C"), but that may not be sufficiently determinable until the hearing or a point closer to the hearing than at this time

When, in the column on a document being prepared for business or litigation, "litigation" is listed, it often involves substantial data, including appended documents, that were prepared for business.
